PROFESSIONAL SUMMARY

Results-driven Information Technology graduate and developer specializing in scalable web and mobile applications. Experienced in architecting robust frontend and backend solutions using React Native, JavaScript, and Firebase. Adept at transforming complex requirements into user-centric interfaces and secure architectures, with a proven track record of developing real-time, data-driven systems that solve practical challenges.

PROJECTS

HakbangQuest

[HakbangQuest Github Repo](#)

- **Developed** a gamified fitness tracking application using React Native and Firebase.
- **Implemented** live GPS route tracking for walking, jogging, and cycling to ensure accurate distance logging.
- **Designed** achievement and leveling systems, significantly improving user retention and daily engagement metrics

Tech Stack: React Native, Expo, Tailwind CSS (twrnc), Firebase Authentication, Firebase Firestore.

Project FMR (FarmToMarket)

- **Collaborated** with a cross-functional development team to refactor a comprehensive project management system.
- **Built** a secure 12-stage workflow incorporating a strict, non-bypassable gate architecture.
- **Implemented** advanced role-based permissions to isolate workflows between contractors and finance officers.

Tech Stack: JavaScript, React Vite, Firebase.

Quaestio

[Playstore Link](#)

- **Developed** a gamified fitness tracking application using React Native and Firebase.
- **Implemented** live GPS route tracking for walking, jogging, and cycling to ensure accurate distance logging.
- **Designed** achievement and leveling systems, significantly improving user retention and daily engagement metrics

Tech Stack: React Native, Expo, Tailwind CSS (twrnc), Firebase Authentication, Firebase Firestore.

Growth Journal

[Growth Journal Github Repo](#)

- **Built** a mobile journaling application focusing on personal progress tracking.
- **Designed** distinct, user-friendly interfaces, separating the core Dashboard visualization from the daily Entries screens.

Tech Stack: React Native, Expo, Tailwind CSS (twrnc), Firebase Authentication, Firebase Firestore.

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Responsive Web Design
- **Mobile & Frameworks:** React Native, Expo, CodeIgniter 4
- **Backend & Database:** PHP, Firebase Authentication, Firebase Firestore, MySQL
- **Tools & Platforms:** GitHub, VS Code, XAMPP, Figma, Canva, Arduino

EXPERIENCE

Sorsogon City Police Station

August 2025 – January 2026

PI-CAD Technical Intern

- **Contributed** 496 hours of technical support and development within the Public Information - Community Affairs and Development (PI-CAD) unit.
- **Designed** SOCARDS (Summary of Crime and Accident Reports) and highly visible community outreach flyers.
- **Managed** the technical infrastructure and setup for local seminars, including the Anti-Criminality Defense 2.0 event.
- **Implemented** routine maintenance and performed hardware troubleshooting for office equipment.
- **Digitized** and organized confidential hard-copy records, migrating them to secure storage systems.

EDUCATION

The Lewis College

2025 – 2026

Bachelor of Science in Information Technology

Arellano University - Juan Sumulong Campus

2019 – 2020

Senior High School - STEM Strand (Science, Technology, Engineering, and Mathematics)

AWARDS & CERTIFICATIONS

- **Best Capstone Project:** Awarded for the development, innovation, and defense of "HakbangQuest."
- **Awardee:** Imelda Nicolas Academic Distinction Award - The Lewis College
- **Participant:** BITSCON (Bicol IT Student Conference)
